Data Engineer – Laboratory Systems (m/w/d)

Vienna, Austria

Full-time

Company Description

Eurofins Scientific is an international life sciences company, which provides a unique range of analytical testing services to clients across multiple industries. The Group believes it is the world leader in food, environment, pharmaceutical and cosmetics products testing and in AgroSciences CRO services. It is also one of the global independent market leaders in certain testing and laboratory services for genomics, discovery pharmacology, forensics, CDMO, advanced material sciences and for supporting clinical studies. In addition, Eurofins is one of the leading global emerging players in specialty clinical diagnostic testing.

Eurofins PSS Insourcing Solutions® is a global, award-winning insourcing solution. We place our skilled team directly at the client site, managing operations seamlessly and eliminating complexities. We ensure a strategic, long-term service commitment that delivers value directly at the client' site, utilizing their facilities, equipment, and methodologies, while maintaining the same service, expertise, and cGMP compliance available at the Eurofins facility. If you're an employee seeking an exceptional career journey, Eurofins PSS Insourcing Solutions® is your gateway to a future where innovation, collaboration, and success converge. Join us in a world where excellence knows no boundaries!

Job Description

We are currently seeking to hire a **Lab Advisor/Data Engineer** for our PSS Vienna Team. This role will support one of our teams based in Vienna, and your key responsibilities will include, but are not limited to:

- **Data Optimization:** Enhance data sources to ensure the acquisition of highly structured and meaningful data (e.g., LAM, GENI (including raw data), ASTER control charts).
- **Data Flow Optimization:** Streamline data flows for typical experimental and study setups, including data transfer from laboratory equipment to storage and digital architecture (e.g., fermentation, chromatography, analytics).
- **Programming & Scripting:** Develop and/or implement programming and scripting solutions to improve data flow (e.g., VB macros, PowerApps, Bots).
- **Lab Equipment Support:** Assist with regular calibration and preventive maintenance activities for lab equipment.
- **Sample Shipment Preparation:** Provide support for the preparation of sample shipments.
- **Content Verification:** Conduct content verification and perform raw data checks for study data.

Qualifications

For this interesting opportunity we are looking for somebody with

- Bachelor/Master level in (Bio)informatics, Data Science or equivalent or Bachelor/Master level Biology/Chemistry with a strong focus on data analysis and processing
- Experience with Microsoft PowerApps, VB macros or Bots

- Good knowledge of scripting and programming
- Strong computer proficiency in Microsoft Office (Excel, Access, etc.)
- General understanding of a lab workflow
- Strong communication skills with proactive and solution-oriented personality
- Good problem solving and troubleshooting skills
- Fluency in English, German skills are a plus

The ideal candidate is open minded and interested in a challenging position within the team, Diversity is a key element of our team and a pillar for our success.

Additional Information

We are offering you an interesting position within a truly global company. After several onboarding trainings, to make sure you have the experience you need, you will be working independently in our team.

- Unlimited, full-time contract with Eurofins PSS
- Interesting international as well as national career opportunities
- Comprehensive catalogue of trainings focused on technical experiences as well as leadership and management skills
- Interesting client projects

If this position could be of interest to you or if you have any questions regarding this position, please feel free to reach out to Dhivi Sanghi, Eurofins PSS Recruiter and Talent Attraction Specialist for Germany and Austria.

The minimum salary according to the collective agreement (application group III) for this position is at least EUR 2633.91 (2025). Due to the responsible and demanding tasks and with appropriate qualifications, an appropriate overpayment is envisaged.

Please note that as per Eurofins policy, we do not accept unsolicited resumes from third-party recruiters unless such recruiters were engaged to provide candidates for a specified opening. Any employment agency, person or entity that submits an unsolicited resume does so with the understanding that Eurofins will have the right to hire that applicant at its discretion without any fee owed to the submitting employment agency, person, or entity.
